Introduction

Nuzool Healthcare Foundation (NHF) is an initiative to promote health and well being in Pakistan. Being a citizen of an underdeveloped country, our lower class struggles a lot with healthcare and most of them are unable to get any proper medication. For this we are making webApp that will fulfill the foundation purpose.

Scope of Work

- Registration
- Doctor's Interface
- Patient's Interface
- Audio and Video consultation
- NHF Medical store

Socio-Economic Benefits

By the end of this study, the objectives expected to be achieved are:

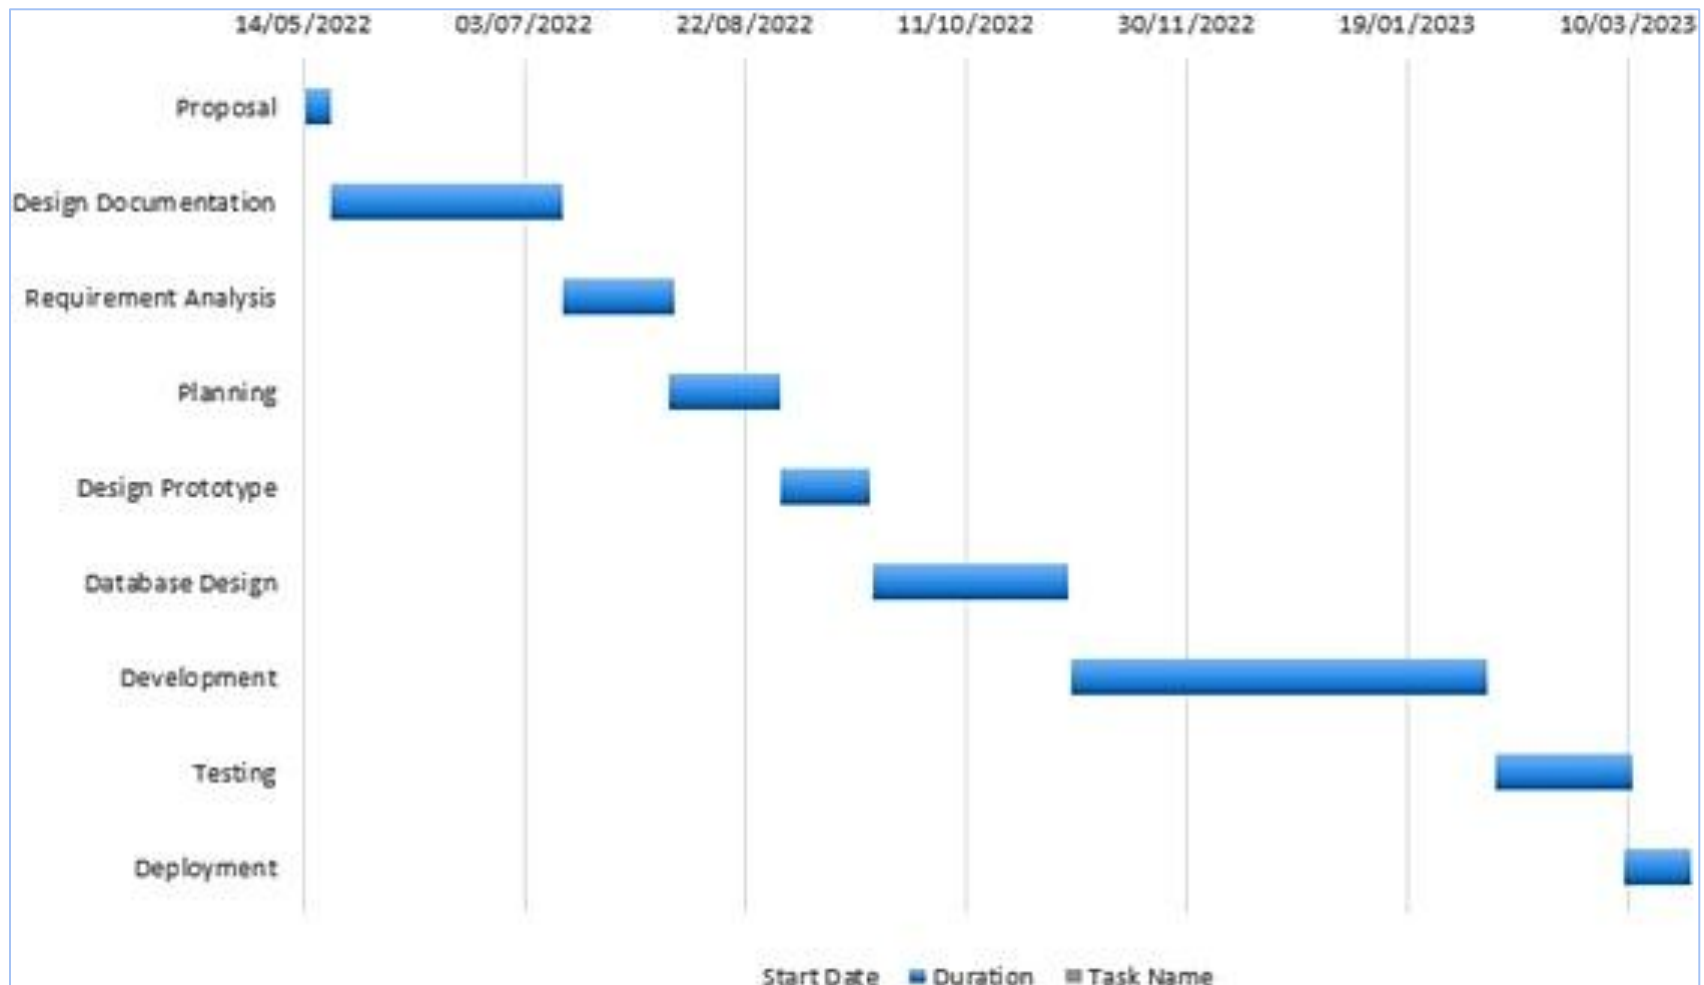

- Provide a platform where the patient can easily reserve the appointment..
- Provide a platform where the patient can do online consultation with doctors.
- Provide a platform from which the user can buy medicines and medical equipment.
- Provide a platform from where the user register yourself as a member of foundation.

Project Plan (Gantt Chart)

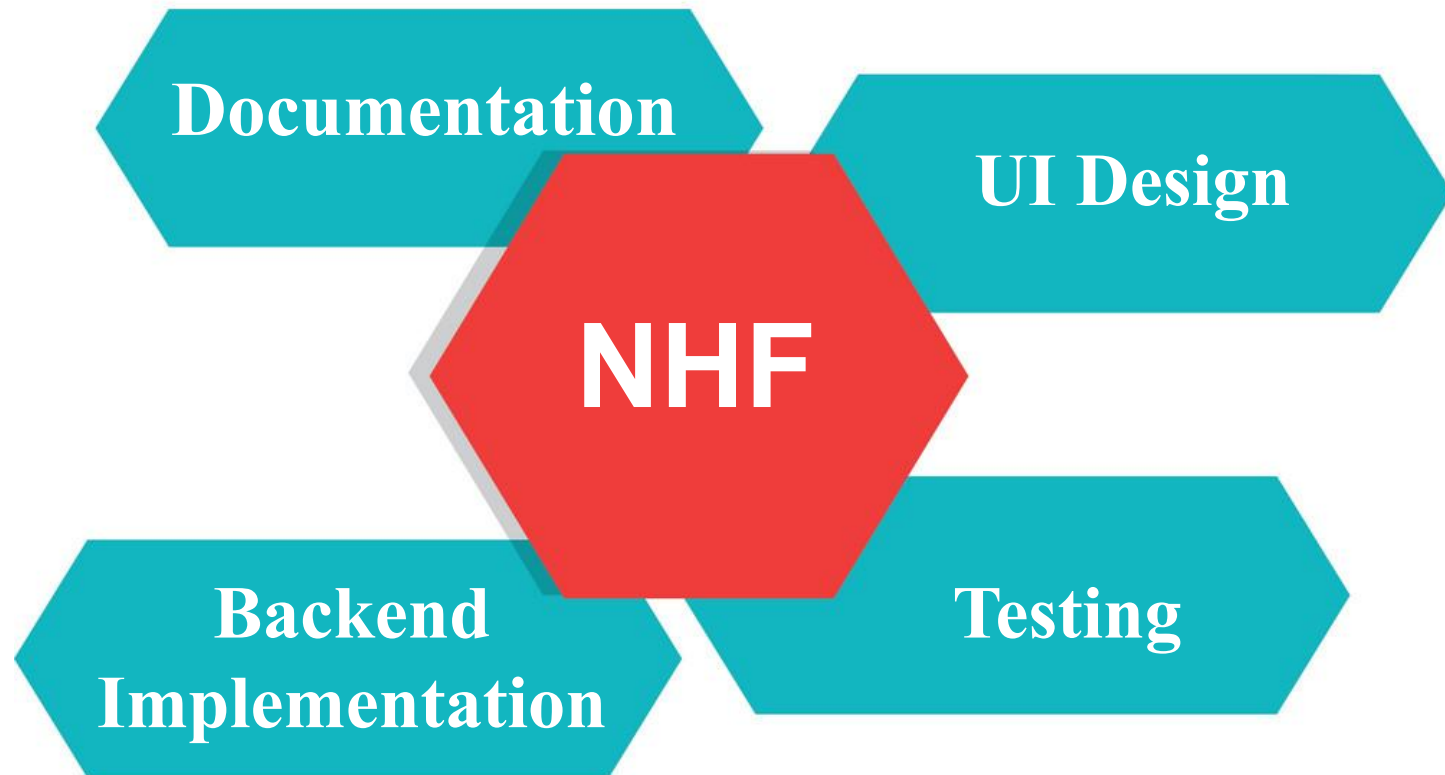

Task Name	Duration	Start Date
Proposal	6	14/05/2022
Design Documentation	53	20/05/2022
Requirement Analysis	25	12/07/2022
Planning	25	05/08/2022
Design Prototype	20	30/08/2022
Database Design	44	20/09/2022
Development	94	04/11/2022
Testing	31	08/02/2023
Deployment	15	09/03/2023
